Word, PowerPoint

Confident presenter

Organisation for  
intimate and large-scale  
productions

### PROFILE

Specialist in design for theatre and performance working collaboratively with professional directors and creative groups. I have an in-depth knowledge of the production process following experience realising shows as a designer. I am a passionate theatre practitioner, driven to provide exceptional work in this industry.

Graduating with a 1st class degree from Rose Bruford College I have exceptional organisational skills to best manage the intense production process. I have realised many productions as a designer, providing clear communication through multiple departments and managing production output. My professional credits give me an in-depth departmental knowledge which allowed me to assess production needs, from costume supervisor to scenic artist, I can support and assess direction.

I am seeking to expand and grow into a fast paced company which will push my abilities as a designer and as a head of department.
